PROFESSIONAL SUMMARY

- A leading-edge solution developer with over 7+ years of experience as a Full Stack Developer, specializing in web and mobile application development.
- Expertise in React.js, Vue.js, Node.js, TypeScript, JavaScript, PostgreSQL, MongoDB, GraphQL, Next.js, and AWS.
- Strong domain knowledge in Banking, E-commerce, and Retail.
- Experienced in designing responsive, scalable, and high-performance applications.
- Adept at agile development methodologies, CI/CD, and test-driven development.
- Strong knowledge of RESTful APIs, Redux, Jest, Enzyme, Cypress, and Git workflows.
- Proficient in AEM development, web accessibility (WCAG), and performance optimization.
- Led and mentored junior developers, ensuring best practices in React.js, state management, and UI performance.
- Integrated front-end components with backend services for seamless data synchronization.
- Conducted code reviews to improve code quality, maintainability, and adherence to best practices.

EDUCATION

Post Graduate Certificate - Mobile Solutions Development

Conestoga College

2021 – 2022

Waterloo, Canada

B.Tech - Information Technology

Sri Shakthi Institute of Engineering & Technology

2013 – 2017

Coimbatore, India

PROFESSIONAL EXPERIENCE

BMO Capital Markets

Lead UI Developer (Contract)

May 2023 – present

Toronto, Canada

- Built scalable, maintainable, and high-performance UI components using React.js.
- Spearheaded UI development for multiple corporate banking, commercial banking, and loan deal tracking projects, delivering scalable and high-performance solutions.
- Developed a global search engine for clients, improving data retrieval efficiency.
- Ensured accessibility and security compliance in UI components handling sensitive financial data.
- Implemented state management and asynchronous data handling for improved responsiveness.
- Reduced system downtime through proactive monitoring and debugging.

Semios

Full Stack JavaScript Developer

Jul 2022 – Mar 2023

Vancouver, Canada

- Developed and maintained the Semios Platform, a data-driven application for monitoring agricultural equipment.

- Integrated Google Maps API and Highcharts for real-time data visualization and tracking.
- Implemented GraphQL APIs to enhance application performance and efficiency.
- Led the migration of legacy components to React and TypeScript, improving scalability.
- Optimized database queries in PostgreSQL, resulting in a 30% improvement in load times.

Karmax Heavy Stamping (Magna Cosma International)

Software Developer Intern (Conestoga Research Student)

Sep 2021 – Apr 2022

Milton, Canada

- Developed an Operational Financial Dashboard for a North American automotive parts manufacturer.
- Designed interactive UI components using Vue.js, Vuetify, and Vuex.
- Built backend services with Node.js, TypeORM, and MySQL to support real-time data updates.
- Improved application performance by 20% through database query optimizations.

Sirius Computer Solutions

Consultant

Jun 2017 – Dec 2020

Chennai, India

Web | Mobile | AEM Solutions Specialist

- Developed multiple enterprise-level web applications for E-Commerce and Medical Device Manufacturing industries.
- Built scalable AEM-based websites using Java, HTL, React.js, and jQuery.
- Led a team of developers and managed offshore L3 support for multiple clients.
- Created a One-Stop Mobile App for company-wide utilities using React Native and SQL.
- Developed a custom E-Commerce platform integrated with AEM, reducing time-to-market by 40%.

FREELANCE EXPERIENCE

Full Stack JavaScript Developer

Nov 2020 – Dec 2020

Tec Workshop

Remote

Interior Design Company Website

- Developed a fully responsive website to showcase client portfolios.
- Built with React.js and Email.js for seamless contact form integration.

UI Developer

Oct 2020

Portfolio Website

Remote

- Created a personalized portfolio for a client with an intuitive UI.
- Developed using React.js and SASS, enabling easy content updates.

Full Stack JavaScript Developer

Jan 2020

CBE Shopping

Remote

Finance Company Website

- Designed and developed a responsive financial services platform.
- Built with React.js, Node.js, and MongoDB for robust backend functionality.

SKILLS

Frontend — React.js, Vue.js, Next.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3, SASS, JavaScript, TypeScript

Mobile — React Native

Backend — Node.js, Express.js, Java 9, GraphQL, REST APIs

CMS — AEM (Adobe Experience Manager), Strapi, Contentful

Database — PostgreSQL, MySQL, MongoDB

Cloud & DevOps — AWS, GitHub Actions, CI/CD

Version Control, Testing & Tools — GitHub, Bitbucket, Jest, Enzyme, Cypress, Jira, Azure Boards, Trello, Docker

AWARDS

Mobile Solutions Development Capstone Award	2022
--	------

Conestoga College

Awarded Best Capstone Project – Class of 2022

Feather in the Cap Award	2019
---------------------------------	------

Sirius Computer Solutions

Outstanding performance during the third quarter of 2019.

Feather in the Cap Award	2018
---------------------------------	------

Sirius Computer Solutions

Outstanding performance during the second quarter of 2018.

Codes & Gears Hackathon Winner	2018
---	------

Sirius Computer Solutions

Won a 36-hour coding competition
